### **Code Development Process Notes:**

As noted in the posted Advisory Statement of February 4, 2009, the revised Code Development Process includes maintaining the current 3-year publication cycle with a single cycle of code development between code editions, implemented as follows:

  - Single Code Development Hearing (CDH) for all codes in 2009
  - Two Final Action Hearings (FAH) in 2010 – modified Groups A and B (see below)
  - Publish 2012 edition in April/2011
- New Process – 2012/2013 and going forward
  - Code committee application deadline (all codes): June 1, 2011
  - Codes split into two groups: Group A and Group B
  - Group A: IBC; IFGC; IMC; IPC; IPSDC
    - Code change deadline: January 3, 2012
    - Code Development Hearing: April/May 2012
    - Final Action Hearing: October/November 2012 (in conjunction with Annual Conference)

### **2009/2010 Cycle Notes:**

- Revised code change deadline of June 1<sup>st</sup> posted on March 19<sup>th</sup>
- Distribution date: Complimentary code development cycle document distribution will be limited to CD's mailed to those who are on ICC's code change document mailing list. Published versions of the code change documents will only be provided to those requesting a copy via advance orders and there will be a charge to cover the cost of printing and shipping. A limited supply will be on-site at the CDH and FAH for the same charge.
- Code Development Hearings: The Baltimore Code Development Hearings will include all 13 I-Codes. The hearings will be held in the conventional two track format with the hearings split before and after the Annual Conference during the periods of October 24 – 31 and November 4 – 11. The specific codes and hearing order to be determined based on code change volume.
- Final Action Hearing Groupings: Final Action Hearing logistics dictate that the hearings will not be split along established Group A and B codes (see above) due hotel commitments which limit the amount of hearing time at the October/2010 FAH versus the May/2010 FAH. Tentatively, the May/2010 FAH will include Group A codes plus certain Group B codes to be determined based on code change volume.
